Main Content:

Welcome to the official website of the Reference Laboratory for TSE Spongiform Encephalopathies

In general, here you can find information on the activities of the Reference Laboratory for TSEs (EURL TSEs) but also contacts of the National Reference Laboratories for TSEs throughout Europe and news/events.

Moreover, by means of this website we disseminate technical information to the experts of the National Reference Laboratories for TSEs and make available references to laboratories dealing with TSEs worldwide. Lastly, this website serves as a portal for the access to services offered by EURL TSEs to the NRLs. A general introduction to animal TSEs can be found, for example, on the ad hoc web pages maintained by the World Organisation for Animal Health (WOAH) or the European Food Safety Authority (EFSA).
